

— enclosed
your answer — I am now ready to
Stoneyton Sunday afternoon.

Scared Leora

I have some time to write and glad I have
known a little of me as well as of them
in my bag. We live very near the School
the long — think they are going to move
this to those hills and we go with
them — my early journey and the progress
of persons work for the evening and
I hope get this letter coming after
I have seen out before to day
and among my how do you feel
the last exertion has the effect of
you — we are obliged to let you have
so much trouble though the members executive
giving off his hand letter — he says he left
that to the General getting of the box and now
is sent by his effort — & just as you might
as I dealt with the most difficult subject
but I send him today the old box which
was gone and gallan present back to you so that
letter will be enclosed — I hardly had time to have written
the Mrs. Allen story he it would. He has told the
truth as far as no means as stronger than the
proverb — The box is to be gathered together
to get home. I don't know if you have any
but I am sure you will fit to the
her out to see any body — She was glad very to
see her son and her husband —
